Hi Cynthia,

Interesting interpretation.

Let's talk when you get a chance.

Mike

**Subject:** no to superfund site designation

My name is Beverly York from Columbia Falls, MT. I have been a resident of Columbia Falls & the surrounding area for 50 years & am also on the Liaison Panel for CFAC.

In a very distressing meeting on Thursday evening, January 21st, it came to our attention, after being told that Glencore & CFAC, if they took responsibility for the cleanup of the Aluminum Plant & surrounding area, would be able to legally follow the process through working with the EPA & DEQ to completion of dismantling the plant without being named a superfund site.

After a talk by Mike Cirian, it became evident that we on the panel & the community of Columbia Falls, had been led down a dishonest path.

I am writing to let you know that I, as a citizen of Columbia Falls & a registered voter since 1976, am totally against this site becoming a superfund site. If Glencore & CFAC are willing to take on the cost & follow the rules of demolition & cleanup, it makes no sense to spend hard-earned taxpayer dollars & 3 times as long a period of time & triple tax money to go the way of the federal government.

We need to ban together in the community & work to clean this site up & get another business or business park or housing development or something going to support our community, not further the employment of more government officials. Thank you for your time. Bev York
